WASHOE COUNTY OFFICIAL PRESS

C. O. POWNING. EDITOR AND PROPRIETOR

SATURDAY, AUGUST 21, 1875.

TOO LUNIENT.

Brigham Young after the rodskins had left the valley, met them at Lo-gan and distributed ten hooves and twenty or thirty sacks of flour among them. They were about 1,090. What is this double-distilled marderer meddling with them for? Are there no officers of the Government look-after the Indians to take cognizance of his actions?-Cornne Mail.

Yes, there are pleaty there, but it has been the policy of the Governmont to deal very gently with this villian who has been guilty of crimes enough to hong him a dozen times. Brigham's plans can be easily seen in the above. He fears that the damning evidence brought to light in England have gone to England to the recent Lee trial will fall back upon him, where it belongs, and he wants to onlist the rodskins in his favor so that they will fight for him. and do all the dirty work, or at least have it charged to them, as in times past. How long will he be thus left to dely justice and his government?

The world is to hand in its checks on the 10th of next mouth. There's no doubt about it this time, for the Adventists have gone all over the figures.--Ev.

Dolinquont subscribors, old maids and politicians will bear this in mind and settle their affairs, for we tremblo to think what will be their punisliment in the next world. To be sure this thing is coming off as per programme, unless postponed on account of the wonther.

General Strotners, whose other name is "Porte Crayon," spoke of Dr. Mary Walker as "pant-o-greafte," and she wants \$10,000 damages.—Ex.

Poor Dr. Can't stand a joke, but "the shoo hurts where it pinches," don't it, Mary-we mean, Dr.? It was none of his business if you do wear pants, and pant for glory, why he does just the same thing. Poor Dr., to be thus abused.

THERE are at present 2,000 men and 600 carts ongaged on the construction of the Southern Pacific railroad in the Telegraphic Pass. The work to be done is of the heaviest description of grading and rock cutting. In one place in the Pass the road winds around among the mountains for seven miles, whilst actually making a direct distance of but little over a mile.

Since the trial Tilton has been quite a rectuse. He is devoting his whole time to the preparation of a novel, which he is employed to write and which he hopes to have in press before the Summer is out. He refuses to tell the title of it, or by whom he is employed. He tells, however, that he has been offered by Monroe, of the Family Story Paper, \$75 a column for the story and that he declined it.

Wondering what becomes of all the lead pencils is in order. In one week of last month a firm in Now York City received orders for 445 miles of load pencils. To make these only 83,000 feet of codur lumber are required, and after they are made they will load six freight care. This immense consumption of lead pencils is doubtless omsed by the attempts of women to sharpen thom with a pair of seissors or a dull case Anife. Persons who have witnessed these efforts need no longer wonder at the demand.

Laura D. Fair was before the Probate Court in San Francisco the other day as an applicant for an order authorizing the sale of some real estate standing in the name of her little daughter. She got it.

BRIEF NEWS TREMS.

Jeff Davis declines to address the Winnabago (Ill.) fair.

A negro insurrection is greatly feared in Georgia. Gladstone's book has not been pro-

hibited in France, as has been stated. forman Prisble is lying at the

point of death in Carson City. His complaint is dropsy. Recovery is impossible.

Shacknasty Jim has gone to the happy hunting grounds.

The body of Grimwood, the man who went up with Prof. Donaldson in his final fatal balloon voyago, has been found on the Lake Michigan shore.

Edwin Booth's injuries are less serious than at first it was feared they were. He had one of his arms and some of his ribs broken.

The French engineers who are to assist in sounding the channel for the great tunnel between France and commence operations.

Over nine hundred leaded cars crossed the Missouri river at Omaha bridge during the week ending August 9th, east and west bound. They included one hundred and three cars of stock and ten cars of salmon from the west.

The Chicago Tribune makes a note of the remarkable fact that while not one ex-President is living, the wives of five of them survive-Mrs. Polk, Mrs. Fillmore, Mrs. Tyler, Mrs. Lincoln and Mrs. Johnson. Of those ladios, one is insane and another at the point of death.

PARMER complains that a hook and ladder company has been organ-ized in his neighborhood. He states that the ladder is used after dark in climbing into his hen house, after which the hooking is done.

FINALE SEMINARY .- Yosterday morning we published an item in which we said that Bishop Whitaker would be here on the 25th or 26th to look after the interests of the proposed female semmary. He writes us that he has received a donation of \$10,000 toward the enterprise, but desires as much more before he commonces the building. The citizens will be called together to talk the matter over, and see what can be done. All will agree on the importance of the enterprise and the great credit it will be to the town. The residents of Reno have an eye to the prosperity of the town, and will not let an opportunity like this fall through from lack of backing. Reno offers very superior inducements as the location of it and all will no doubt see to it that Bishop Whitaker matter.

No Bhoodshed. - Thursday last two farmers got into a quarrol about a cow, which had strayed upon the premises of one of them, who wanted \$5 for feed doyou od. The other refused, whereupon No. 1 drew a shot gun; No. 2 still refused and showed that he didn't scare worth a cent. No. 1 then put away his gan, when No. 2 got one, and through its peculiarly porsuasive powers marched off with his cow. No blood was shed; the cow is fat and happy, and the mon are alive and well, which is

STHAMBOAT SPRINGS .- Those fa mons springs are situated cleven miles south of Rono, on the Virginia and Truckee Railroad. There are several of these curious springs within a short distance of the road. They are near each other, all having a common source, though different outlets apparently. They are situated in an alkaline flat, devoid of vegetation, and are very hot, though the temperature varies in different springs. They are said to possess excellent medicinal qualities. At times they are quite active, emitting jets of water and clouds of steam, which at a distance resembles the blowing off of steam from a large boiler. The ground around them is soft and treacherous in places, as though it had been thrown up by the springs and had not yet cooled or hardered. It is related that once upon a time, when a party of emigrants, who were toiling across the plains, arriving near these springs about camping time, they sent a man nhand--a Dutchman--to search for a suitable place for camping-one where water and grass could be obtain id. In his search the Dutchman discovered these springs, which happoned to be quiet at the time, and knelt down to take a drink of the clear, nice-looking water. Just at out and over the astonished Dutch- as soon as possible. man. Springing to his feet, hedashed away to the train, shouting to the top of his voice, "Drive on, drive on. H-ll is not five miles from this place!" the innocent fellow firmly believing what he uttered.

PERSONALS .- The Lassen Journal of Thursday says that Capt. Merrill went to Reno last Monday for the purpose of meeting Gee. W. Julian, of Indiana, and a gentleman named Wood of Washington, D. C., who are coming here to see the country

and examine its resources. We had the pleasure yesterday of a call from Prof. W. T. Ross, traveling correspondent of the Chicago Times. He is a brother to the Ross brothers, who are well known farmers in this vicinity. Mr. Ross has been in Salt Inka City looking into the Mountain Mondow Massacro and other matters, and is now picking country. He likes Reno.

WATER TRAIN .- The Contral Pacific Railroad Company realize the gets a good backing. Think the importance of proparing for whatever matter over and do your duty in the omergencies may arrive in the way of conflagrations, and will station a water train hore. A piece of track will be laid on the other side of the turn-table for its use, and it will be kept always ready for use. The company have considerable valuable property here and we are astonished that they have not taken this precautionary step before.

DANGEROUSLY ILL. -The reason of the abrupt move of George C. Gotham's leaving the political stump in California and hurrying East was because he had received a tolegram from Boston that his wife was danmuch better than if either or both gerously ill there. He wont through Beardman of this place is one of the boro abunt a week ago. were now in the cold, cold ground.

SELLING INDIANS WAISKY .- Last Thursday evening just as the passenger train from the East was coming into town, a shot was fired. An investigation elicited the following facts: The night watchmen saw a man buy a bottle of liquor, and they suspected he was getting it for the Indians, so they kept a close watch upon his movements, and saw him give the whisky to a dusky child of the forest. They arrested him and brought him into town. When they were on the platform at the depot the culprit jumped from it and attempted to escape. A shot was fired in his neighborhood which brought him to terms and he was jugged.

Conference.-On the 2d day of September the Conference of the M. E. Church for the State of Nevada will commence in Reno. All the ministers of that persuasion who receive their appointments from this Conference, will be present. Bishop Peck will provide and look after the interests of the church generally. The members of the church here are now busy fixing up the church for o'clock; returning arrive at 1 r. M. the session. Carpets are being put Fare \$1 50. down, a new bell will be here soon, curtains have been hung and many other matters attended to, which will add much to the beauty and comfort of the church.

THRIB regular old-fashioned onigrant wagons passed through here yesterday, and the inscription, "Arizona or bust," showed their destination and determination. As they have not "busted" we supposed they will make Arizona in the course of human events, if not sooner. It brought back old times, though.

HOME CIRCLE. - Don't forget the social dance to be given by the Homo Circle social clab next Tuesday evening at Dyor's Hall. The mere mention of the fact will be sure to draw a crowd, as all know they will have an enjoyable timo.

WENT THROUGH .- Last Thursday night the wife and family of ex-Senator Stewart, went through town on their way to California. Hon. Bill himself vis detained in Salt Lake on that instant a jet of spray was thrown | business, but will follow his family

> freight train brought a narrow gaugo cost. locomotive from the East. It is for the Stockton & Ione Narrow Gauge Railroad and is No. 1. It is a little beauty -about as large as a pint of cidor half drank up.

IMPROVING .- We learn yesterday the welcome news that Mrs. Hill, who was shot by a Chinaman tho other day, is improving and that there is no danger now. This is good news as she is a most estimable lady.

RETURNED .- Last Thursday night Stoddard and his wife and Parker and his wife returned from their wedding tours, and will now settle down to actual life without further ram-

Low,-The Truckee river is getng so low that it is advised that ! up notes about this section of the Stanaway sprinkle the front with his water cart to keep them from dying of thirst.

> ACQUITTED .- A. J. McCreary, who was arrested on a charge of stealing ore from the Mountain View Mine, has been acquitted by Judge Gilson.

> THE furnace at Posville will be finished either to-day or Monday, and we may expect to lour good news from that lively little camp soon.

> In the case of Mrs. Norton, which is again before the Santa Barbara Courts, it was Thursday found im possible to get a jury, and so the matter stands for the time.

Bownes' Marsio . s offered for sale in our advertising columns. All know its beauty and worth. W. M. agonts for the sale of the property.
